

FineMicro 300 μ m Secure

FineMicro Secure has been developed and perfected over many years and is one of the leading composite fire-protection solutions on the market. All components are proven composite materials and meet the EU fire-protection standards as non-flammable and flame retardant.

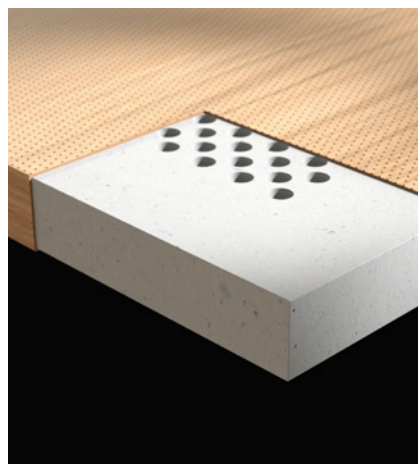

Front	Veneer
Substrate	Gypsum fibreboard A2
Back	Back balancing layer
Fire rating	A2 s1-d0 pursuant to EN 13501-1
Substrate thickness	16 mm (weight approx. 14 kg/m ²)
Perforation	Substrate board perforated in line with acoustic requirements
Micro-perforated	300 μ m / 465,000 holes/m ²
Edge finishing	Raw, clean cut
Installation	Invisible as required

Optimum board formats based on substrate and finish.

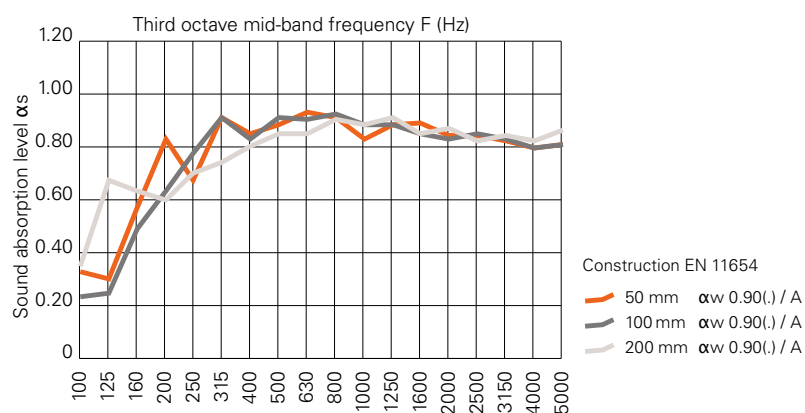

Further formats available on request.

Board width	380 / 600
Board length	2500 / 3000

Max. formats	Length	Width	Thickness
	3000	1200	16

Sound absorption
